# Your DISC Personality Report

## Introduction

Your specific distribution of scores on the DISC personality test is an indication of your unique personality. You can think of this as your DISC Personality 'DNA'. In the pie chart below you see your distribution of scores.

The highest percentage is likely to be your most dominant personality factor, the second highest your next most dominant personality factor and so on. As such for you the DISC factors are ordered as: Steadiness, Compliance, Dominance, Influence.

## DISC Personality Model

To help you understand the DISC model of personality here are definitions of the four factors measured.

<input type="checkbox"/>	<b>Dominance</b>	Describes the way you deal with problems, assert yourself and control situations.
<input type="checkbox"/>	<b>Influence</b>	Describes the way you deal with people, the way you communicate and relate to others.
<input type="checkbox"/>	<b>Steadiness</b>	Describes your temperament - patience, persistence, and thoughtfulness
<input type="checkbox"/>	<b>Compliance</b>	Describes how you approach and organize your activity, procedures and responsibilities.

## Your DISC personality type
